

Ryu Hyunseung

I build web apps — and the languages and runtimes they run on.

I move between frontend work and systems programming. Using an abstraction layer and building one teach different things, and I want both.

Selected projects

rhseung.me A personal site built on Astro islands. This page is the result. 2026.08

Placeholder project

An example of a project that stands on a card alone, with no write-up. Replace it with a real project or delete the file.

2025.04 – 2025.09

The card title goes straight to the repository, not to a detail page
